INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

The Office Action of June 20, 2005, objected to the Information Disclosure Statement filed February 4, 2004, as not bearing the application number on each page of the list (Form 1449). The Form 1449s were filed simultaneously with the application before the serial number was assigned.

The Notice of Allowance states that the revised Information Disclosure Statement may be submitted prior to the payment of the Issue Fee. Therefore, the applicants resubmit the same lists of citations designated 1 of 7 through 7 of 7 at this time. The applicants also submit an additional Form 1449 identifying U.S. Patent Number 5,635,573 to Herrington et al. The '573 patent is also a "Reference Cited" on the applicants' parent application, now U.S. Patent Number 6,713,582.

The applicants thank the Examiner for his assistance in this matter. Entry of the lists is requested.

Information Disclosure Statement
DIMAIO et al.
U.S.S.N. 10/771,780
0095-UP-DIV-1

Listed on the accompanying Form PTO-1449 are documents that may be considered material to the examination of this application and are submitted in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97, and 1.98.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue.

The applicants reserve the right to establish the patentability of the claimed invention over any of the information provided by this statement, to prove that the enclosed information is not prior art, and/or to prove that this information is not enabling for the teachings purportedly offered.

This statement should not be construed as a representation that an exhaustive search has been made or that there does not exist information more material to the examination of the present patent application. The Examiner is specifically requested not to rely solely on the material submitted with this statement.

The applicants request that the examiner initial and return a copy of the enclosed Form PTO-1449 and indicate in the official file history of this patent application that the documents have been considered.

Information Disclosure Statement

No fee for this Information Disclosure Statement is believed to be due because the Statement was filed concurrently with the divisional application. This Statement merely overcomes technical objection to the form of the original 1449s. However, the U.S. Patent and Trademark Office is authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 23-2656.
